The injection system came from American Bosch in the form of the PSJ rotary pump. That's not one many people remember but it was used on a few engines in that era and is similar to the better-known PSB. It fed Bosch injectors that popped at 3,000 psi. Max full-load rpm was 3,200 for the V6 engines, 2,600 rpm for the D637, and 2,800 for the DH637.
