Cisco SG300-28 Default Password and Other Support Info

Hi, Does anyone know if all 52 ports on the SG300 are usable? Or does enabling an uplink SFP port disable an access port? I know sometimes under the hood the SFP ports share the same hardware as the last 4 access ports so they are mutually exclusive, but I cannot find any architecture documents for these switches.

Solved: Sg300 52 port switch, can I use all 52 ... - Cisco ...

There are two methods to reset Cisco SG300 switch to factory default. First Method - Manual Reset. Disconnect all the Ethernet cables from the Cisco sg300 switch. Press and hold the Reset button on the switch for atleast 20 seconds until all the port LEDs light up. The switch will reboot now.
