Honors Pre-Calculus - Mr. Warren North Paulding High School

Honors. Precalculus Honors is a comprehensive course that weaves together previous study of algebra, geometry, and functions into a preparatory course for calculus. The course focuses on the mastery of critical skills and exposure to new skills necessary for success in subsequent math courses. The first semester includes linear, quadratic, exponential, logarithmic, radical, polynomial, and rational functions; systems of equations; and conic sections.

study. One fundamental prerequisite is fluency in a “basic language”; this provides a common framework in which to exchange ideas, care-fully formulate problems and actively work toward their solutions. In modern science and engineering, college mathematics has become this “basic language”, beginning with precalculus, moving into calculus and

Precalculus - University of Washington

Pre-Calculus bridges Algebra II and Calculus. Pre-calculus involves graphing, dealing with angles and geometric shapes such as circles and triangles, and finding absolute values. You discover new ways to record solutions with interval notation, and you plug trig identities into your equations.
