Lua is a scripting language that can be used by SRB2. It allows users to write custom game logic without editing the game's source code, in addition to many of the capabilities SOC also has. For these reasons, Lua scripting is considered a more powerful method of modification available to SRB2 compared to SOC.

Lua - SRB2 Wiki

Lua provides the logical operators and, or and not. In Lua both nil and the boolean value false represent false in a logical expression. Anything that is not false (either nil or false) is true, including 0, which might be surprising coming from some other languages. There are more notes on the implications of this at the end of this page.

lua-users wiki: Operators Tutorial

Lua is a web- and mobile-access technology platform focussed on improving patient outcomes by facilitating communication between providers and patients. Life Biosciences Acquires Communication and Technology Platform Lua Meanwhile, Lua 's family and friends previously expressed concerns over the adult film star's prescription drugs.
