In the 200 years since it was first published, Shelley's tale has been rewritten and reinterpreted so many times that it has become inseparable from its celluloid incarnation. From Gothic horror to spooky comedy, cinema has warped Shelley's creation, building a Frankenstein mythos that extends well beyond the original text.

No you cannot. There is a certain thing called life span that is fixed for every individual specie. The nerve cells or the neurons are the type of cells that functions throughout ones life,and the average span of such cells are 80-90 years.once these cells die the nervous system doesn't function properly.
