### Spring Webflow Reference Guide

Type Conversion Options Starting with version 2.1 Spring Web Flow uses the type conversion and formatting system introduced in Spring 3 for nearly all type conversion needs. Previously Web Flow applications used a type conversion mechanism that was different from the one in Spring MVC, which relied on the `java.beans.PropertyEditor` abstraction. Spring 3 offers a modern type conversion alternative to `PropertyEditors` that was actually influenced by Web Flow's own type conversion system. Hence Web ...
