Volvo Penta D1-30 Starter Motor - Parts4Engines

The starter motor on the D1-30, and I suspect quite possibly on the D1-20 too, has a far higher current demand than the starter motor on the 2030 which it replaced. The problem was solved in my case by beefing up the cabling. I would suggest you check the voltage drop at the starter motor and see what you are getting. 14 Apr 2016

Volvo Penta Engine starting fault D1-20 | YBW Forum

Hello, I seem to have a big problem with my Volvo D1-20B (digital panel). Starter won't crank. So far, engine has been starting ok but some months ago I started getting the warning beep and icon in the panel screen right after starting the engine. Probably this was a warning that something...
